

Loadmaster® Footlocker Cases Protection on the Move

MAKING A CASE FOR ALL REASONS

For more than 60 years, ECS has proudly served the American Warfighter. It has been our civic duty to supply the most protective containers on the market today to the United States Armed forces. In 2010, ECS developed something more personal for the men and women who serve. We listened to complaints about other footlockers and adhered to suggestions, needs, and wants, to create our own version of the footlocker. The Loadmaster® Footlocker not only met those stringent requirements set forth by our men and women serving, they also meet grueling MIL-STD held firm by the U.S. military. These footlockers are certainly not meant to sit at the foot of a bed, but they can! Hermetically sealed and watertight, these cases are also designed for adventure. Footlocker Cases are ideal for military and outdoor applications which require uncompromised protection from moisture, dust, sand and battlefield contaminants. Water tight cases provide protection from moisture, salt spray, sand and dust throughout the world's climate extremes. Each case has a water-proof gasket and an automatic air pressure relief valve. Impervious to fuels, oils and solvents, they can also be decontaminated if exposed to chemical warfare agents. The Footlockers also feature two heavy-duty reinforced removable trays

IDEAL CUSTOMER

- Soldiers Deploying
- College Students
- Outdoorsmen
- Sportsmen

FEATURES

- Two Removable Trays
- Watertight Gasket
- Stacking
- Meets MIL-STD-810G
- Comes In Many Colors

"I prefer these (Loadmaster Footlockers) since they stack/lock together, and also the trays in the top keep gear better organized."

- Corey T.

THE ECS DIFFERENCE

	ECS TRANSIT CASES	COMPETITORS TRANSIT CASES
INTERLOCKING STACKABILITY	Patented Loadmaster® Interlocking Stacking Pattern	Varies
ZERO DRAFT ANGLE	Yes	No
FIELD REPLACEABLE HARDWARE	Yes	No
MODULAR	Fully Modular	No
STANDARD COLORS	11+	4
STANDARD SIZES	More than 150	Varies
FASTENER INSERTS & LID HANGERS	Molded in threaded inserts to eliminate leak and NBC paths	Riveted
FEATURES	S/S Black Oxide Hardware, Ergonomic Handles, Air Valves, Gaskets	
OPTIONS	Hinges, Casters, Lid Pouches, Locking Latches, Forklift RotoCubes Custom Foam	

FAST CONTAINER OPENING AND RESEALING

All Loadmaster® Footlocker Cases feature black oxidized latches and ergonomic polymer handles. Loadmaster® latches permit rapid opening of sealed cases without the use of tools. Exterior hardware is easily field replaceable with basic hand tools. Exterior hardware is attached with Nylock retained machine screws which thread into fully encapsulated fasteners molded into the case walls during the rotational molding process.

MODULAR STACKABILITY OF ALL LOADMASTER® CASES

Modular dimensions and unique stacking features molded into the top and bottom surfaces of Loadmaster® Footlocker Cases and Loadmaster® Shipping Cases allow these cases to securely interlock when stacked.

- Loadmaster® cases work like a set of children’s building blocks. Two 12-inch high cases can be stacked together alongside one 24-inch high case. A fourth case can be stacked over the tops of all three lower cases. There are endless combinations of stacked blocks that can be created from a set of children’s wooden building blocks. And, there is limitless flexibility when stacking groups of Loadmaster® modular rotomolded cases.
- The modular dimensions of Loadmaster® cases allow identical stacking features on one Loadmaster® case size to interlock with the stacking features on all other Loadmaster® case sizes.
- Any Loadmaster® case size can be rotated 90-degrees in the horizontal plane and its stacking features will interlock securely with all other Loadmaster® case sizes.
- Unusual groupings of Loadmaster® cases efficiently fit onto 463L military pallets. Modular dimensions for these cases were selected by ECS for maximum utilization of the 463L pallet.
- Loadmaster® rotomolded transit cases are also fully stackable with TSC composite rackmount cases which are equipped with Loadmaster® stacking features.

OPTIONAL FEATURES AND CAPABILITIES

Loadmaster® Footlocker Cases are available with many options.

- Locking Hasps: For extra security, each Footlocker features a locking hasp. The locking hasps works with padlocks to provide added protection and safety.
- Casters: Loadmaster® Footlocker Cases also feature heavy-duty casters for transportation in any terrain. The rugged casters work in just about any environment and are field replaceable.
- Colors: Loadmaster® Footlocker Cases can be manufactured in virtually any color. However, most Loadmaster® cases are manufactured in commonly used military colors such as olive, desert tan, medium gray, black and earth tone, and these are the case colors ECS keeps in stock.

LOADMASTER® CASES SHIPPED FROM STOCK

Many stock case sizes can be immediately shipped from the ECS 42,000 - Sq. Ft. rotational molding facility, completed in 2005.

MILITARY GRADE

Loadmaster® Footlocker Cases exceed the requirements of military specifications for transportable cases. Performance verification testing to MIL-STD 810 is routinely performed at ECS Case.

MANY DIFFERENT SIZES

Loadmaster® Footlocker Cases come in these sizes:

Outside Dimensions	Inside Dimensions	Lbs.
33.4" x 20.8" x 12"	30.4" x 17.8" x 10.5	36.6
33.4" x 20.8" x 16"	30.4" x 17.8" x 14.5	39.6
33.4" x 20.8" x 20"	30.4" x 17.8" x 18.5	42.7
25" x 16.6" x 12"	22" x 13.6" x 10.5	25
25" x 16.6" x 16"	22" x 13.6" x 14.5	27
25" x 16.6" x 20"	22" x 13.6" x 18.5	30

MIL-STD-810G PERFORMANCE TESTING FOR:

- High and Low Temperature
- Drop Testing
- Transportation Vibration
- Loose Cargo Bounce
- Water Submersion/Wind Blown Rain
- Fungus Growth
- Low Pressure
