Criteria for County HUBZone Designation

A Qualified Nonmetropolitan County is any county that is not located in a metropolitan area and that meets any of the following three criteria:

- the county's median household income is less than 80% of the nonmetropolitan state median household income, based on the most recent data available from the Census; or
- the county's unemployment rate is not less than 140 percent of the average unemployment rate for the United States or for the State in which such county is located, whichever is less, based on the most recent data available from the Bureau of Labor Statistics (BLS); or
- the county includes a Difficult Development Area (DDA), as designated by HUD in accordance with section 42 of the Internal Revenue Code of 1986, within Alaska, Hawaii, or any territory or possession of the United States outside the 48 contiguous States.

Criteria for Qualified Census Tract Designation

The Small Business Act defines a Qualified Census Tract (QCT) as having the meaning set forth in Section 42 of the Internal Revenue Code of 1986. That section of the tax code defines a
